A smartphone is shown from a slightly elevated angle, displaying a digital music track card. The card has a teal header and footer and a dark blue central area. At the top is a circular album art placeholder showing a silhouette of a person with arms raised against a red sun or moon. Below it, the title "SongName" is displayed in large white letters, followed by "Artist" in smaller white letters. A horizontal line separates this from the text "98% of the primary market sale earnings will be awarded to the musician". Another horizontal line follows, with the text "OFF CHAIN BENEFITS" above two checkmark icons: "Concert Ticket" and "Exclusive Drops & Events".

#### Short Bio of Artist

Included this because the purpose of the product is to help people know more unappreciated artists so having a bio or recommending them other songs they made would be great (Since they know the artist they could easily search up songs)

Or we could include their social media accounts
